

13th Annual **SERGS** MEETING

23rd-25th
SEPTEMBER 2021,
SVENDBORG, DENMARK

SPONSORSHIP BROCHURE

Society of European Robotic
Gynaecological Surgery

WELCOME LETTER

Dear Friends and Colleagues!

We are delighted to invite you to the 13th European annual meeting of SERGS that will be organized in Svendborg, Denmark on September 23-25, 2021. The congress will be held in association with University of Southern Denmark and Odense University Hospital, Denmark.

The theme of the congress will be "New frontiers in Robotic Surgery", the impact of integration of new technologies. We look forward to seeing you in 2021!

Robotic surgery is well integrated in Denmark as well as the Nordic countries. Although robotic surgery was introduced first in onco-gynecology, new frontiers have been found and especially in the field of benign surgery and in women with endometriosis, robotic surgery has demonstrated its superiority for advanced surgery. In the field of advanced surgery new technologies are needed and the Nordic countries are adopting very fast the latest IT solutions including new options for imaging and combined technologies.

SERGS 2021 is to welcome in Svendborg, Denmark representatives from all regional hospital and universities as well as private hospitals, prominent health experts from various fields of medicine as well as students from all medical universities around the world.

We are constantly searching of new global know-how and innovative approach in medical research, development and practice. This is also the fact in relation to robotic technologies and we hope that our scientific program will be able to share new knowledge and evolve you all.

We look forward to seeing you in Svendborg, Denmark

Prof. Martin Rudnicki

SERGS 2021 chairs congress

Prof. Rainer Kimmig

SERGS president
